This application is further to our application Ref COR-2413 which covers the historic unrecorded road between Byway 19 and bridleway 82.

The route of this application has always been used by riders instead of Bridleway 62 as the latter has been destroyed and obstructed many decades ago. However this path was gated and locked by the landowner early in summer 2020. The part of this route instead of Bridleway 82 relies substantially on User Witness Evidence
