May 7, 1998

Dear Sir,

**TAMAR VALLEY DISCOVERY TRAIL:  
PERMISSIVE PATH AT ST. LEONARD'S, LAUNCESTON.**

As part of the above project, I have, as owner of the field at Launceston, offered use of a permissive path at this location. I attach a map showing the location and route of the permissive path which is situated at grid reference SX 352 846 between points A and B.

I now give notice under Section 31 of the Highways Act 1980 that I do not intend to dedicate the path as a public right of way and that public use of the path will not constitute any such intention,

Yours faithfully,
